

**Company:** Viettel IDC

**Company Description:** Viettel IDC is a leading provider of data center and cloud computing services in Vietnam. After more than 17 years of development, we are proud to be Vietnam's first Data Center and Cloud Computing service provider with the most diverse service ecosystem, offering a wide range of services such as colocation, cloud computing, managed hosting, and network security.

**Nomination Category:** Event Categories

**Nomination Sub Category:** Conferences & Meetings - Tech Event

**Nomination Title:** DATA CENTER & CLOUD INFRASTRUCTURE SUMMIT - VIETTEL IDC

1. Which will you submit for this nomination, a video of up to five (5) minutes in length or a written essay of up to 525 words? Choose one:

Essay of up to 525 words

2. If you are submitting a video of up to five (5) minutes in length, provide the URL of the nominated video here, OR attach it to your entry via the "Add Attachments, Videos, or Links to This Entry" link above, through which you may also upload a copy of your video:

3. If you are providing a written essay for this nomination, submit in this space an essay of up to 525 words describing the event: its genesis, goals, development, and results:

**Total 503 words used.**

#### Origin

In 2022, the rapid development of information technology infrastructure contributed to the exponential growth of the data center and cloud computing markets across Asia. According to Research and Markets, Vietnam ranked among the top 10 emerging markets with an impressive compound annual growth rate. In the context of a strong digital transformation wave and an increasing demand for new technologies, this sector witnessed a remarkable breakthrough. Seizing this momentum, the Data Center & Cloud Infrastructure (DCCI) Summit was born — the largest industry event organized by a local provider in Vietnam.

#### Objectives and Strategic Direction

As the leading provider of data center and cloud services in Vietnam, Viettel IDC initiated the DCCI Summit with the vision of creating a collaborative platform where Vietnamese businesses could explore global technology trends and foster learning and innovation. The summit aims to cultivate a strong community of enterprises aligned with the mission:

Empowering Vietnamese people to own and lead the country's digital infrastructure.

Moreover, it integrates the pursuit of digital transformation with a long-term commitment to green and sustainable growth.

#### Event Value and Highlights

DCCI Summit brings together top-tier speakers from major Vietnamese and international tech enterprises, offering in-depth perspectives on the latest developments in the data center and cloud sectors. More than just a knowledge-sharing event, DCCI Summit serves as a practical strategic dialogue forum, enabling businesses to directly exchange with experts and solution providers.

In addition, the technology showcase zone offers participants hands-on access to breakthrough innovations, while opening doors to strategic collaborations that strengthen business networks and long-term partnerships.

#### Development and Key Achievements

2022: The inaugural DCCI Summit, themed "Shaping the Digital Future in Vietnam", welcomed over 800 enterprises. It made a strong impression and became a pioneering forum for technology leaders to discuss building Vietnam's digital ecosystem.

2023: The event expanded to both Hanoi and Ho Chi Minh City, reinforcing its role in driving transformation under the theme "Accelerating the Digital Journey". It focused on empowering businesses to accelerate digitalization by leveraging core technologies and effective implementation strategies.

2024: As the conversation shifted from speed to sustainability, the summit adopted the theme "Developing the Sustainable Future". The event attracted nearly 3,000 participants across two cities and hosted 30+ leading speakers who addressed energy-efficient technologies, infrastructure optimization, and environmental impact reduction in the digital transformation race.

#### Legacy and Impact

DCCI Summit has left a positive and lasting impact on the tech community:

97% of participants expressed satisfaction,

91.15% indicated their intention to attend future Viettel IDC events.

Beyond the keynotes and panels, attendees showed high engagement in sideline activities such as: hands-on technology demos, the networking zone, post-event surveys, immersive tech experiences using AI and VR, and strategic MoU signings between businesses and technology providers within the summit framework.

After three years, DCCI Summit has welcomed over 6,500 attendees, featured more than 100

speakers, 80 tech exhibitors, and coverage by 50+ media agencies — solidifying its position as Vietnam's leading annual event in the data center and cloud infrastructure space.

4. Optionally, you may list creative and production credits for your event - a list of the people and organizations that contributed to its development:
