Our reputation is built on solving complex challenges through precision, responsiveness, and a high-touch service model that scales. Leading organizations across industries trust NEI to navigate international mobility with speed and certainty—whether it's one move or a global program.

Our services have long been rated among the best in the industry. At NEI Global Relocation, excellence isn't a goal—it's our standard. Over the past two years, we've achieved 100% client satisfaction and a 98.6% relocating employee satisfaction rate. These results speak to the trust we've earned and the culture we've built.

Our commitment to quality extends across every touchpoint. With a 4.5-star Google rating and a carefully vetted global supplier network, we ensure service excellence and consistency worldwide. We hold our partners to the same high standards we set internally—fostering accountability throughout the relocation journey.

Operational integrity is another key differentiator. NEI has recorded zero findings in both our SOC 1 and SOC 2 audits for two consecutive years—an achievement that reflects the strength of our internal controls and our careful stewardship of client programs.

Our performance has also been recognized on the global stage: NEI was recently honored with Forum for Ex-Patriot Management (FEM) APAC and Americas EMMAs awards, underscoring our status as a trusted global mobility partner and reinforcing our dedication to delivering best-in-class experiences for clients and relocating employees alike.

While many relocation companies excel in one or two areas, NEI consistently delivers across all dimensions—client experience, employee engagement, supplier quality, and operational discipline. That kind of consistency doesn't happen by chance; it's the result of a deeply embedded culture of excellence and a team committed to getting it right, every time.

By prioritizing people, partnerships, and performance, NEI continues to redefine what exceptional global mobility service should look like.

5. If you are providing written answers for your submission, you must provide an answer to this third question: Explain why the achievements you have highlighted are unique or significant. If possible compare the achievements to the performance of other players in your industry and/or to the organization's past performance (up to 250 words):

NEI earned 25 #1 rankings in the last three Trippel Relocation Managers' Surveys—nine more than the next highest-rated company. Over the past five years, that total rises to 54—more than double any other RMC. In a competitive industry where sustained excellence is rare, this level of consistency sets NEI apart.

These rankings are especially meaningful because they come from the Trippel Survey—one of the only independent, widely respected benchmarks in our field. Based on direct feedback from corporate relocation professionals, the survey offers an unbiased view of how RMCs perform where it matters most.

NEI consistently leads in critical categories: Overall Satisfaction, Willingness to Recommend, and Performance. These reflect more than metrics—they speak to the trust, execution, and comprehensive quality behind a relocation program. In 2024, NEI received the highest overall rating of any RMC and was the only provider to place in the top three in every category. We also earned the highest average transferee satisfaction score in the separate Trippel Nationwide Employee Survey—proving our strength on both the client and employee sides of the experience.

Beyond Trippel, NEI was named to the HRO Today Baker's Dozen, placing first in two of the three categories, and received top honors in the FEM APAC and Americas EMMAs—further validating our global reputation. We were also recognized locally by the Greater Omaha Chamber of Commerce with its Business Excellence Award in Culture.

Compared to competitors—and even our own past performance—NEI's results aren't just impressive. They're unmatched in the relocation industry.

6. You have the option to answer this final question: Reference any attachments of supporting materials throughout this nomination and how they provide evidence of the claims you have made in this nomination (up to 250 words):
