3. If you are providing written answers for your submission, you must provide an answer to this first question: If this is a brand-new product, state the date on which it was released. If this is a new version of an existing product, state the date on which the update was released:

Founded in May 2023, the inception of Eventista was inspired from the vision of transforming how entertainment businesses engage with and monetize their fan communities. This vision was reinforced by the strong growth potential of the global online voting and fan engagement market. According to industry research, **the global online event ticketing market size** is projected to reach **USD 69.47 billion in 2032**, growing at a **CAGR of 7.20%** over the forecast period (2024-2032). Complementing this trend, **the online voting system market** is also expected to grow to **USD 809.4 million by 2034**, representing a compound annual growth rate (**CAGR**) of **9.05%**.

At that time, artists and entertainment companies heavily relied on sponsorships and advertising as primary sources of income—yet a highly valuable revenue stream remained underutilized: fan engagement. Recognizing this gap, Eventista was established to empower the industry with digital tools that fully unlock the commercial potential of fan communities. Our solution provides a **Fan Engagement Ecosystem** including **online voting platforms** with real-time voting results, **ticketing - merchandise distribution systems** and technological capabilities integrating over **200 payment methods** available in **145 countries**. Furthermore, we offer **AI-powered Analytics & Dashboards**, supporting organizers in tracking performance and making informed business decisions.

4. If you are providing written answers for your submission, you must provide an answer to this second question: Describe the features, functions, and benefits of the nominated product or service (up to 350 words):
