3. If you are providing written answers for your submission, you must provide an answer to this first question: Briefly describe the nominated organization: its history and past performance (up to 200 words):

Total 191 words used.

Revomed Group is a leading health and beauty innovation powerhouse, headquartered in Thailand, with a growing international presence. Established with a mission to drive forward the nutraceutical and cosmetic industries through science-backed innovation, Revomed has played a pivotal role in bridging the gap between academic research and commercial application.

Over the past decade, Revomed has developed more than 2,000 products in collaboration with over 60 global partners, supplying both emerging and established beauty brands across Asia and the Middle East. With in-house R&D capabilities, state-of-the-art manufacturing, and a team deeply committed to advancing product science, Revomed has earned recognition as a trusted OEM/ODM partner in the region.

What sets Revomed apart is its long-standing commitment to academic-industry collaboration. The company has formal Memoranda of Understanding (MOUs) with prestigious Thai institutions such as Chulalongkorn University, Mahidol University, the Government Pharmaceutical Organization (GPO), and the Agricultural Research Development Agency (ARDA). Internationally, Revomed collaborates with academic and research leaders in Japan, including a Japanese national university and Ichimaru Pharcos.

These partnerships underscore Revomed’s unique position as a company that transforms academic innovation into accessible, market-ready solutions that elevate health, beauty, and wellness globally.

4. If you are providing written answers for your submission, you must provide an answer to this second question: Outline the organization's achievements since the beginning of 2022 that you wish to bring to the judges' attention (up to 250 words):

Total 224 words used.

Since 2022, Revomed Group has formalized key **MOUs with Thailand’s leading academic and government institutions** including **Chulalongkorn University, Mahidol University,** and the **Agricultural Research Development Agency (ARDA)** to drive scientific innovation into commercial success. These partnerships have catalyzed multiple groundbreaking developments in the health and beauty industry.

In collaboration with **ARDA and Mahidol University,** Revomed signed a **patent licensing agreement** to commercialize **OrganoGel Emulsion from Rice Bran Oil**—a trans-fat-free, semi-solid formulation that enhances the **stability, bioavailability, and controlled release** of active compounds. Developed by Assoc. Prof. Dr. Supatra Lilitcharoen, the emulsion features high oxidative stability and is suitable for use in **functional foods, supplements, and cosmetics,** setting a new clean-label standard for delivery systems.

With **Mahidol University,** Revomed created an **Anti-Aging Coffee** using antioxidant-rich coffee beans from Thailand’s Nan province. Backed by clinical research, the beverage delivers full-spectrum polyphenols to support aging reversal from within, promoting wellness through locally sourced agriculture.

In partnership with **Chulalongkorn University** and Thailand’s top hair implant hospital, Revomed developed an **Anti-Hair Loss Herbal Shampoo** that merges traditional Thai botanicals with scientific validation—naturally reducing hair fall while stimulating growth.

Additionally, with **Chulalongkorn University,** Revomed is co-developing an **Anti-Aging Education Program** aimed at brand founders, entrepreneurs, and consumers to raise awareness on nutraceutical innovations and functional health.

These achievements underscore Revomed’s mission: bridging academic excellence with global health and beauty innovation.

5. If you are providing written answers for your submission, you must provide an answer to this third question: Explain why the achievements you have highlighted are unique or significant. If possible compare the achievements to the performance of other players in your industry and/or to the organization's past performance (up to 250 words):

Total 231 words used.

Revomed Group stands out as **Thailand’s leading OEM/ODM manufacturer** with the **highest number of formal MOUs and technology transfer agreements** granted by top academic institutions. Unlike most private-sector manufacturers who focus primarily on production, Revomed has become a trusted **strategic partner to universities,** actively collaborating from the early stages of research through to commercialization.

We are among the **very few in the industry** that not only co-develop innovative formulations but also receive **official licensing rights** to produce and scale patented academic research—such as the **OrganoGel Emulsion** licensed from **ARDA and Mahidol University.** This innovation is not only clean-label and scientifically advanced but also locally developed, unlike most delivery systems sourced from overseas.

The **Anti-Aging Coffee** project with **Mahidol University,** and the **Anti-Hair Loss Herbal Shampoo** with **Chulalongkorn University,** show how Revomed integrates academic knowledge with local raw materials and commercial scale-up something rarely achieved in this sector.

Additionally, the development of an **Anti-Aging Education Program** with Chulalongkorn marks Revomed as a pioneer in **industry-academic learning initiatives,** empowering the broader ecosystem beyond product innovation.

Compared to industry peers who may collaborate sporadically or rely on off-the-shelf formulations, Revomed’s deep-rooted academic partnerships reflect a **long-term vision of co-creation, IP development, and thought leadership.**

This model has not only elevated our product pipeline but also positioned Revomed as the OEM of choice for brands seeking science-backed, regulatory-compliant, and future-ready solutions in health and beauty.

6. You have the option to answer this final question: Reference any attachments of supporting materials throughout this nomination and how they provide evidence of the claims you have made in this nomination (up to 250 words):
