Rather than following trends, the Bank has consistently set new standards in Turkish banking especially in gender equality, entrepreneurship, digitalization, and environmental responsibility.

Halkbank became the **first Turkish bank to be included in the Bloomberg Gender Equality Index**, an achievement driven by Mr. Arslan’s strong belief in social equity. This was supported by the Bank's launch of Türkiye’s **first independent Gender Equality Report**, offering full transparency on gender-related policies.

Taking inclusive banking further, Halkbank established the country’s **first Women Entrepreneurship Banking Department**, a structural innovation ensuring sustainable support for women-led businesses.
