Welcome to the sixth annual Middle East & North Africa Stevie® Awards, the only awards program to recognize innovation in the workplace throughout 18 nations in the Middle East and North Africa. This year the program received more than 1,100 nominations from organizations of all sizes, in virtually every industry. We are honored to celebrate your accomplishments in Ras al Khaimah, with our sponsor, RAK Chamber of Commerce.

More than 118 professionals around the world reviewed, rated and commented on the nominations. Just over 36% of the nominations considered received average scores high enough to qualify as Stevie Award winners, all of which will be recognized tonight with Gold, Silver or Bronze Stevie Awards. All of the judges are acknowledged in this program. We can't run a successful awards program without our volunteer judges, and we can't thank them enough for their participation.

Stevie Awards competitions receive more than 12,000 nominations each year from organizations of every type in more than 70 nations. The Middle East & North Africa Stevie Awards is one of nine Stevie Awards programs, all of which recognize achievements in the workplace. Our other programs include The American Business Awards®, The International Business Awards®, the Asia-Pacific Stevie® Awards, the German Stevie® Awards, the Stevie® Awards for Sales & Customer Service, the Stevie® Awards for Great Employers, the Stevie® Awards for Technology Excellence and the Stevie® Awards for Women in Business. We invite you to learn about them all at www.StevieAwards.com.

Thank you for participating in the sixth annual Middle East & North Africa Stevie Awards, and for joining us this evening. Best wishes for continued success!

Cordially,
Maggie Miller

About ADQCC

The Abu Dhabi Quality & Conformity Council (ADQCC) is a government entity established under Local Law No. 3 of 2009 to develop the quality and conformity infrastructure in the Emirate. Its primary objective is to enhance the quality of local exports and products.

Serving as a framework for regulators and industry, the Council promotes a knowledge-based economy by developing infrastructure that aligns with international standards. ADQCC's work is divided into six key areas, including standardization of specifications, enhancing metrology system capacity, strengthening inspection infrastructure, and launching conformity programs and certifications.

The Council collaborates with a diverse range of partners to ensure that products meet quality standards and to enhance safety and quality at local, regional, and global levels.

Vision: To enhance infrastructure quality and support Abu Dhabi's global excellence.

Mission: To lead, facilitate, and develop a globally integrated and efficient quality infrastructure in Abu Dhabi that promotes a culture of quality, industrial development, competitiveness, and consumer safety.

Values: Transparency, Goal orientation, Initiative, Innovation and Commitment.
