Entry Title

Black Duck Software, Inc. for the 2024 Stevie Awards for Technology Excellence, Cybersecurity Company of the Year

Category

Q01c. Company of the Year - Information Technology - Cybersecurity

Company of the Year Submission Format

Written Answers

a. Briefly describe the nominated company's history and past performance (up to 200 words). Required

Black Duck (formally the Synopsys Software Integrity Group) boasts the broadest, most differentiated portfolio of software security products and services in the industry, including SaaS and on-prem security testing tools, managed security testing services, and white glove consulting services.

Black Duck supports a wide range of customers, including 49 of the Fortune 100, six of the top 10 financial services companies, 10 of the top 10 technology companies, and six of the top 10 healthcare companies.

Black Duck has been recognized by Gartner® as a Leader in the Magic Quadrant™ for Application Security Testing for seven consecutive years, ranking highest for its 'Ability to Execute' and 'Completeness of Vision' for five years in a row. Black Duck has also been recognized as a four-time Leader in the Forrester Wave™ for Software Composition Analysis and a three-time Leader in the Forrester Wave™ for Static Application Security Testing.

b. Outline the nominated company's achievements since the beginning of 2022 that you wish to bring to the judges' attention (up to 250 words). Required

Since 2022, the Black Duck has further bolstered its leadership position and earned additional industry accolades in the software security market through continued product innovation, partnerships, and a key acquisition.

- Released significant enhancements to its Code Sight™ IDE plugin to enable developers to quickly find and fix security defects in source code, open source dependencies, infrastructure-as-code files, and more before they commit their code.

- Acquired WhiteHat Security, a leading provider of application security Software-as-a-Service (SaaS), providing Black Duck with significant SaaS capabilities and market-segment-leading dynamic application security testing (DAST) technology.

- Introduced new static, dynamic, and software composition analysis engines on its Polaris Software Integrity Platform®, enabling DevOps teams to quickly find and fix vulnerabilities in their proprietary code, open source dependencies, and application behavior through a single, fully integrated SaaS platform.

- Launched Software Risk Manager, a powerful new application security posture management (ASPM) solution that enables security and development teams to simplify, align, and streamline their application security testing across projects, teams, and application security testing tools.

- Partnered with ReversingLabs, Secure Code Warrior, and NowSecure to complement its portfolio.

- Launched Black Duck® Supply Chain Edition, a new software composition analysis (SCA) offering that enables organizations to mitigate upstream risk in their software supply chains.

- Launched Polaris Assist, an AI-powered application security assistant on the Black Duck Polaris® Platform that boosts security and developer productivity, allowing them to understand and remediate security vulnerabilities in their code more easily.

c. Explain why the achievements you have highlighted are unique or significant. If possible compare the achievements to the performance of other companies in the firm's industry and/or to the company's own past performance (up to 250 words). Required

Black Duck has differentiated itself as the undisputed leader in the software security industry, as evidenced by its growth, market share, and industry accolades:

- Recognized by Gartner® as a Leader in the Magic Quadrant™ for Application Security Testing for seven consecutive years, ranking highest for its 'Ability to Execute' and 'Completeness of Vision' for five years in a row.

- Received the highest scores for all five use cases in the 2022 and 2023 Gartner® Critical Capabilities for Application Security Testing.

- Recognized as a four-time Leader in the Forrester Wave™ for Software Composition Analysis and a three-time Leader in the Forrester Wave™ for Static Application Security Testing.

- Received the CRN® Channel Chiefs award in 2022, 2023, and 2024 for rapidly establishing and growing a successful channel partner program.

- Earned the highest market share (31.2%) in the application security testing market according to Gartner's "Market Share: All Software Markets, Worldwide, 2023".

d. Reference any attachments of supporting materials throughout this nomination and how they provide evidence of the claims you have made in this nomination (up to 250 words). Optional
