The applications launched by Umaasudhan Nataraja are a great testament to the patent "METHOD AND SYSTEM FOR ENABLING RINGBACK TONE SERVICE WITHOUT NETWORK DEPENDENCY" providing a new Telecommunication Architecture for Value Based Services that can free end users from the Monthly Fee. The monthly fees were the result of the costly royalty patent charges incurred by the Mobile Operators across the USA and now with the help of the new framework many features like Peer to Peer Telecommunication Calls , Chat , File transfer can be possible in the future for much lowered costs and readily available for anyone with a smartphone.
