c. Explain why the achievements you have highlighted are unique or significant. If possible compare the achievements to the performance of other persons in the nominee's industry(s) (up to 250 words). Required

Abdulrhman Alqarni's contributions are unique in both scale and depth. Unlike many executives limited to one agency, he has led transformation across five national bodies: from the Anti-Corruption Authority to State Properties, Municipalities, Finance, and beyond.

His innovations—such as the Digital Oversight System for High-Risk Activities and the Dual Disbursement Prevention Principle—are not merely procedural upgrades; they have fundamentally altered how the Saudi public sector detects fraud, enforces compliance, and ensures fiscal integrity. No other executive in the region has authored reforms approved by both the Royal Court and the Council of Ministers, while also being adopted across ministries.

Alqarni's performance stands out globally. As the first person worldwide to win the GRA 2025 in nine domains—including governance, innovation, and strategic impact—his model has become a global benchmark. According to the GRA spokesperson, his “blend of policy innovation and execution” reflects a modern archetype for leadership.

Compared to peers, his record of recovering billions in public funds, improving national rankings in transparency, and driving Vision 2030 digital transformation is unmatched. His efforts elevated Saudi Arabia's profile in G20 and UN integrity frameworks, setting a precedent in international cooperation on governance.

Simply put, Alqarni's leadership is a blueprint for modern public excellence—proven, scalable, and globally recognized.
